

I do not wish to have LPFM stations to take priority over current FM translator service because I support KLOVE and want it to stay on the air. KLOVE radio uses FM translators and if LPFM take priority, people who do not value the services of KLOVE could force them off the air. KLOVE serves me by providing a family-safe radio station where I receive encouragement and positive information. Other radio stations have commercials that promote things I do not believe in. Other stations also have a high mention of sex, violence, and family discord. KLOVE is the only radio station of its kind and I want to keep it here for my family. If KLOVE were to be displaced by a LPFM station, my community would not have a safe radio station for their children to listen to as other stations have secular commercial and immorality on the air. I believe that KLOVE radio is in the public's interest because it is the only station of that plays emotionally uplifting music. It is safe for families and offers services that can rarely be found elsewhere. KLOVE is here to serve. Their goal is to serve the public in a loving way. They do not judge and are uplifting. If KLOVE were to be removed from the airways, that would be a travesty.
